TESTIMONIALS AND PHOTOS OF GLOBAL CULTURAL AMBASSADOR IN PAST 2 YEARS

"Enrolling as a Global Cultural Ambassador was definitely an unforgettable experience. The team is passionate, warm, and always dynamic, which only creates positive experiences for both guests and students. I met countless people from different cultural backgrounds, allowing me to expand my knowledge of the world while exploring new aspects of my own culture and sharing it with others. Through their meaningful lessons about the world, I started to explore my own interest for teaching and involve myself more in ICE, and it inspired me to follow the path of learning and sharing."

My stay in Hong Kong as a university student is now full of treasured memories that I compiled through this program and I am sincerely grateful for this opportunity. Thank you from the bottom of my heart ICE's team!" - **Justine from Réunion**

ICE has recently produced a new **radio programme** under radio station RTHK's Community Involvement Broadcasting Service (CIBS) where we invited **Mohit from Nepal and Kazumi from Japan**, our Global Cultural Ambassadors, to each participate in an episode of the radio show.

Mohit and Kazumi shared about a festival in their home country as well as some fond memories celebrating it. We had a lot of fun curating the episodes with them and chatting with them in a professional recording studio! Hearing their voices and stories on the radio made us so proud and we were so happy to share this experience with them!

"Interacting with Hong Kong secondary school students and fellow members from different countries within the ICE family was a wonderful experience. It was exciting to engage in cultural exchanges, learn from each other, and discover fascinating aspects of various cultures."
